

ELSA EBBERS

Former crewmember (engineer) of the German submarine "U-800". Because the Gestapo found out she is Jewish, Captain Nina Störtebeker arranged her transference to the Unebi. She is cared for by Kuki and Unebi's Chief Engineer Kobayakawa, but remains faithful to the smell fetishist Captain Nina. Due to her time on the U-Boat, she's used to handling diesel engines.
